Skills

- Python Development (Automation, Real-Time Audio Processing, django back-end)
- Selenium Web Scraping and Browser Automation
- GUI Application Design (Tkinter)
- Data Analysis and Visualization
- Problem-Solving
- Critical Thinking
- Teamwork

Experience

Python Developer

Freelance   2023 - present

- Developed real-time audio processing applications using Python libraries, including librosa, sounddevice, and numpy, for tasks such as silence removal, feature extraction, and similarity matching.
- Created advanced automation scripts with Selenium for web scraping and automating repetitive browser tasks.
- Designed interactive GUI-based applications using Tkinter, providing user-friendly interfaces for automation workflows and real-time data visualization.

Education

Bachelor of Science in Information Technology   2024 - present

Cebu Technological University - Argao Campus
